

OUR VISION: To become a STRATEGIC PARTNER critical to the SUCCESS of our CUSTOMERS' KEY PROGRAMS
OUR MISSION: To Deliver reliable products and services on time and provide value added solutions to our key customers

POSITION DESCRIPTION

Position Title:	NC Programmer – Level 3
EEO Classification:	3
Business Section:	Manufacturing Technology; Programming
Reports to:	Manager of NC Programming

Wage Grade:	Type of position: <input type="checkbox"/> Full-time <input type="checkbox"/> Part-time <input type="checkbox"/> Contractor <input type="checkbox"/> Intern/Temp	Hours: 40+ hrs/ week <input type="checkbox"/> Exempt <input type="checkbox"/> Nonexempt Working Conditions: Normal office environment and production environments as required
--------------------	---	--

GENERAL DESCRIPTION OF POSITION

Responsible for creating or revising NC programs using Catia V5 or Mastercam software in order to run CNC multi-axis machinery in the manufacturing of metal (aluminum and hard metals) aircraft parts.

WORK EXPERIENCE & EDUCATION PRE-REQUISITES

- College degree in Math, Science, Engineering preferred but not required
- At least 10 years of Multi axis NC Programming experience in Aircraft parts manufacturing
- Working knowledge in MS Office Applications
- Good working knowledge of CATIA V5 manufacturing, Intercim Post and Vericut software

PHYSICAL & VISUAL REQUIREMENTS OF POSITION

- Accommodation required to read computer screens and documents
- Prolonged sitting and/or standing
- Required to push, pull, reach overhead, climb stairs, bend and exert up to 15 pounds of force

Position Title:	NC Programmer – Level 3
EEO Classification:	3
Business Section:	Manufacturing Technology; Programming
Reports to:	Manager of NC Programming
GOALS FOR: POSITION	
1.	
SKILLS, ABILITIES, KNOWLEDGE & VALUES	
<ul style="list-style-type: none"> • Exercising good judgment and decision making – considering costs and benefits of potential actions. • Critical Thinking – using logic, job knowledge and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems. • Outstanding Communication Skills – the ability to express ideas in the English language both in written form and verbally. • Initiative – willingness to take on responsibilities and challenges. • Stress Tolerance – accepting criticism and dealing calmly and effectively with high stress situations • Dependability – being reliable, responsible and dependable while fulfilling obligations. • Self Responsibility and Honesty - being accountable to company time and resources, being responsible and honest with or without the intervention of Supervisor. • Independence – developing one’s own ways of doing things, guiding oneself and making good decisions with little supervision. • Proven analytical, problem solving, conflict resolution and negotiation skills. • Aviation Industry Knowledge - Knowledge of the Aviation industry and experience with NC programming, assembly, fixturing/ tooling, lean mfg methods, and manufacturing design assistance. • Mathematics — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications. • Mechanical — Knowledge of machines and tools, including their designs, uses, repair, and maintenance. • Design — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models. • Engineering and Technology — Knowledge of the practical application of engineering science and technology. This includes applying principles, techniques, procedures, and equipment to the design and production of various goods and services. • Production and Processing — Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods. • English Language — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar. • Working knowledge of different material such as Aluminum, Stainless Steel, Titanium, etc. 	

Position Title:	NC Programmer – Level 3		
EEO Classification:	3		
Business Section:	Manufacturing Technology; Programming		
Reports to:	Manager of NC Programming		
JOB RESPONSIBILITIES & DUTIES			
Including and not limited to:			
<ul style="list-style-type: none"> • Create NC Program from CAD model or Engineering Drawing independently • Revise NC Programs to iron out any problems after first run • Conceptualize programming jobs • Work efficiently with all supporting software (CAM, Posting, Verification, etc.) • Develop and maintain Perfekta Manufacturing and Programming Standards and Procedures, • Troubleshoot fellow Programmer’s programming related problems • Troubleshoot minor NC Machine problems that are responsible for any discrepant outputs • Identify better cutting methods (tool, fixture, procedure) 			
KPI – KEY PERFORMANCE INDICATORS			
<ol style="list-style-type: none"> 1. Transition Delivery Performance 2. Qty of First Articles submitted on NCR/Tag 3. Cycle Time 4. Overall Budget Performance 			
OUTSIDE INPUTS FOR SUCCESS			
<ol style="list-style-type: none"> 1. Support & communication from leadership 2. Engineering Department 3. QA Department 			
REVIEWED BY	Ahmed Alam	<i>Title</i>	NC Programming Manger
APPROVED BY	Amy Guerra	<i>Title</i>	HR Director
DATE POSTED	9/17/08; 2/1/09
